MALLORCA

Just steps from the quiet cobbled streets of Moscari , a small country lane opens onto a world of spaciousness, tranquility, and nature. Here lies a 21,000 m² plot , perfectly situated for those who wish to live close to the village atmosphere, yet with the open and serene feel of the countryside.

The land slopes gently down towards the views of Campanet , where the rolling hills of the Serra de Tramuntana mountains exude a tranquility that shifts with each season. Although the surroundings are rustic and natural, the village is always within easy reach: a morning coffee in the square, friendly neighbors, and the charm of an authentic Mallorcan community.

It's the perfect balance: a retreat surrounded by nature, yet with the vibrant life of the village just around the corner . Ideal for those who dream of privacy, space, and tranquility without feeling isolated.
